DEEKSHA KUSHWAH

B.Tech Information Technology Student · C++/C Developer · Problem Solver

Bhopal, Madhya Pradesh, India | +91 7024042808 | deekshakushwah840@gmail.com
GitHub: github.com/Deeksha-kushwah | LinkedIn: linkedin.com/in/deeksha-kushwah

EDUCATION

B.Tech in Information Technology 2024 – 2028
Bansal Institute of Science and Technology, Bhopal (BGI Group) **CGPA: 7.14 (Latest SGPA: 8.4)**
Coursework: C++, C Programming, Data Structures, Computer Science Principles, Algorithmic Logic

Senior Secondary (12th Grade) 2024
Navneet Gyan Mandir H.S. School, Vidisha **Score: 70%**

Secondary (10th Grade) 2022
Swastik Senior Sec. School, Vidisha **Score: 76.4%**

TECHNICAL SKILLS

Programming Languages: C++, C (Systems & Algorithmic Problem Solving, Memory Management, Pointers)
Development Tools: GitHub (Version Control, Branching, Collaboration), Visual Studio Code
Core Competencies: Problem-Solving, Team Collaboration, Analytical Thinking, Technical Communication

TECHNICAL PROJECTS

Silent Mode Detector For Missed Call Android Studio · Kotlin
- Engineered an Android mobile application dedicated to women's safety during critical emergency scenarios.
- Implemented background telephony listeners detecting repeated incoming missed calls from urgent contacts.
- Programmed dynamic system volume escalation overriding device mute mode to trigger audible alert alarms.

DSPACE — Dynamic AI Interaction Platform React · Web Architecture · AI Integration
- Developed an interactive web application leveraging React and asynchronous AI pipeline connectivity.
- Designed modular responsive components providing intuitive query input, real-time feedback, and dynamic rendering.
- Implemented clean UI state management and user-guided data exploration cards.

Student Management Grading System C++ · Algorithms · File Streams
- Built an automated academic evaluation system in C++ utilizing object-oriented principles and structured data models.
- Implemented weighted GPA/CGPA grading algorithms, sorting routines for student ranking, and query filters.
- Designed persistent file stream serialization enabling reliable storage and automated report card export.

CERTIFICATIONS

Oracle AI Foundation Associate Oracle University | 2025
Covers Artificial Intelligence foundations, Machine Learning concepts, Neural Networks, and Generative AI paradigms.

C-Basics Fundamental Simplilearn | 2024
Covers memory management, pointer manipulation, structured computational flow, and procedural algorithms in C.

ACHIEVEMENTS & LEADERSHIP

Global Nominee — NASA Space Apps Challenge Hackathon International Recognition | 2024
Nominated globally in the prestigious NASA Space Apps Challenge Hackathon for collaborative engineering innovation.

Google Student Ambassador Campus Leadership | Current
Selected to represent Google student developer initiatives, mentor peers, and organize technical knowledge sessions on campus.

Collegiate & National Hackathons Participant (including SIH) Competitions
Actively competed in fast-paced software hackathons including Smart India Hackathon (SIH), building functional prototypes.
